## SAP ABAP Developer

📍 Indore, M.P. | 📞 +91-9407242660 | 🌐 LinkedIn | ✉️ 1212deeksha@gmail.com

Dedicated and results-driven ABAP Developer with 2.6 years of hands-on experience in SAP development. Expertise in developing and optimizing custom ABAP programs, **Reports, Interfaces, and Enhancements** for SAP applications. Proficient in **Debugging and Troubleshooting** complex technical issues while collaborating with **Cross-Functional** teams to deliver efficient SAP solutions. Adept at working in a fast-paced environment and meeting project deadlines. Looking forward to advancing my career by taking on more challenging roles that involve **SAP S/4 HANA** migration and system integration projects.

### TECHNICAL SKILLS

- Programming Languages: ABAP, SQL
- SAP Modules: SAP MM
- SAP Tools: SAP GUI, Eclipse
- SAP Enhancements and Reports: BAPI, ALV Reports, Smart Forms, BADI, Odata, CDS Views, SAP RAP, OOPs Concept.

### PROFESSIONAL EXPERIENCE

#### ACCENTURE

#### SAP ABAP DEVELOPER

*Application Development Analyst*

*Oct 2022 to Present*

- Collaborated with functional teams to accurately collect and understand requirements for feature **Development and Enhancements**, ensuring alignment with business goals.
- Supported functional teams in **Debugging and Resolving** ABAP-related issues in production environments.
- Developed and maintained custom ABAP programs and reports to meet business requirements across SAP Modules.
- Worked on **Smart Forms**, developing numerous customized forms to meet diverse business needs and improve document processing efficiency.
- Gained knowledge of **OData** services, understanding their role in enabling seamless data communication between SAP and external applications.
- Designed and implemented **BAPIs** for integration between SAP and external systems, ensuring seamless data exchange and optimized process flows.
- Developed customized **ALV (ABAP List Viewer)** reports for various departments, improving data presentation and decision-making by providing flexible and user-friendly reporting interfaces.
- Developed and maintained **IDocs** for electronic data interchange (EDI), including mapping, processing, and troubleshooting issues related to inbound and outbound IDoc interfaces to ensure smooth data exchange between SAP and external systems.
- Familiar with SAP RAP (Restful Application Programming Model) and have explored **CDS Views** (Core Data Services) to understand their role in efficient data modeling, enhanced reporting performance, and analytical applications.
- Conducted **knowledge transfer (KT) sessions** to onboard and up skill junior team members in SAP MM and ABAP development processes.

### PERSONAL PROJECT

#### MANDI APPLICATION

Developed an application to manage transactions between Vyapari (traders) and Kisan (farmers). Used **Module Pool Programming** for custom screens, **ALV Reports** for transaction summaries, and **Smart Forms** for invoice generation. Led Data Migration using **LSMW, BAPI, and IDoc** to migrate legacy data into SAP, ensuring seamless integration and consistency.

### EDUCATION

- **MCA, School of Computer Science and IT** 2019 – 2022 | Indore, India
- **BSC(CS), P.M.B. Gujarati Science College** 2016 – 2019 | Indore, India

### CERTIFICATION

- SAP Certified Associate Back-End Developer- ABAP Cloud

### AWARDS

- **ACE Award, Accenture** 2023 ACE- Bright Beginners Award
