- **Integration:** SD, FI, WM, QM and PS modules & Third-party integration.
- **Tools & Technologies:** SAP ECC 6.0, SAP S/4 HANA, LSMW, LTMC, BDC & Fiori.
- **Soft Skills:** Communication, Problem-Solving, Team Collaboration.

PROFESSIONAL EXPERIENCE

SGN Software Private Limited | April 2023 – Present

Project: Renew Power (Implementation & Support)

- Provided continuous support to clients, addressing issues and offering assistance with SAP system functionalities.
- Managed change requests from stakeholders, ensuring timely execution while minimizing disruption to existing workflows.
- Authored functional specifications for system enhancements and the development of new program versions.
- Coordinated the development of additional functionality via ABAP programming when standard SAP features were insufficient to meet client needs.
- Oversaw testing activities throughout the project lifecycle, including unit testing, integration testing, and user acceptance testing (UAT), etc.
- Addressed and resolved Level 1 and Level 2 support tickets related to purchase order pricing, account assignment, goods movement, and inventory management.
- Contributed to the integration project involving Mynd API with SAP.
- Led the implementation of the subcontracting process in SAP.
- Acted as the primary point of contact for audit queries, providing detailed justifications for various aspects of the Procure-to-Pay (P2P) cycle.

Project: The Man Company (Public Cloud SAP Implementation)

- Analyzed client business processes to identify opportunities for improvement and optimize workflows using SAP solutions.
- Conducted comprehensive gap analysis and tracked RICEF objects to ensure smooth and effective implementation.
- Developed detailed documentation including system configurations, process flows, Business Blueprint (BBP), and end-user instructions.
- Configured material types, screen layouts, number ranges, and flexible workflows to streamline Purchase Order (PO) and Purchase Requisition (PR) release procedures.
- Automated processes for account determination, batch determination, and subcontracting to enhance operational efficiency.
- Provided hyper-care support post-go-live and delivered end-user training on Material Management (MM) processes.

Project: HURL (Support)

- Managed incidents, service requests, and change requests, successfully resolving over 50 tickets per month.
- Developed functional specifications for Material Management (MM)-related reports and smart forms to meet client requirements.
- Configured organizational units, material types, and material groups to optimize system performance.
- Provided ongoing support for day-to-day Procure-to-Pay (P2P) cycle operations and addressed inventory management issues.

Arpan Infrasolution Private Limited | July 2020 – March 2023

Project: Uttar Pradesh Power Corporation Limited (Implementation & Support)

- Migrated initial stock data from legacy systems into SAP to ensure smooth system transition.
- Delivered hyper-care support post-go-live and provided training to end-users on Material Management (MM) processes.
- Configured material master data and purchasing documents to align with business requirements.
- Offered ongoing support for day-to-day Procure-to-Pay (P2P) cycle operations and resolved inventory management issues.
- Prepared comprehensive user manuals, training documents, and video tutorials to support end-user adoption.

Project: Petronet LNG Limited (End-User Support)

- Gained foundational experience in SAP Material Management (MM) processes and Procure-to-Pay (P2P) cycle management.
- Extracted reports from SAP and prepared weekly Management Information System (MIS) reports for inventory and purchase orders.

EDUCATION

Bachelor of Science in Computer Science

Dr. Bhim Rao Ambedkar University, Agra | 2013-2016

CERTIFICATION

SAP Certified Associate - SAP S/4HANA Cloud Private Edition, Sourcing and Procurement

ACHIEVEMENTS

- Reduced procurement cycle time by 20% for Renew Power, streamlining operations and improving efficiency.
- Automated the vendor creation and due diligence (DD) issuance processes, decreasing manual effort by 30%.
- Implemented the subcontracting process for Renew Power, resulting in a 40% reduction in manual effort.
- Resolved over 50 tickets monthly for HURL, significantly enhancing system efficiency and user experience.
- Played a pivotal role in the SAP S/4HANA public cloud implementation for The Man Company, ensuring zero downtime during the transition.
